MATEMÁTICA FINANCEIRA

JUROS SIMPLES

Incógnita	Fórmula
fv	$fv = pv \times (1 + i \times n)$
pv	$pv = \frac{fv}{1 + i \times n}$
i	$i = \frac{fv - pv}{pv \times n}$
n	$n = \frac{fv - pv}{pv \times i}$

JUROS COMPOSTOS

Incógnita	Fórmula
fv	$fv = pv \times (1 + i)^n$
pv	$pv = \frac{fv}{(1 + i)^n}$
i	$i = \left(\frac{fv}{pv} \right)^{1/n} - 1$
n	$n = \frac{ln(fv / pv)}{ln(1 + i)}$
